

Global Health Diplomacy Workshop 2024

Book of Abstracts

Date: November 30 – December 1, 2024

Venue: Zoom Meeting & National Center for Global Health and Medicine

Institute for Global Health Policy Research (iGHP), Bureau of International Health Cooperation,
National Center for Global Health and Medicine

MAIL: ighp_ghd@hosp.ncgm.go.jp

<趣旨>

本ワークショップは、国際保健分野の会議、とりわけ世界保健総会・執行理事会等のガバナンス会議において、世界が直面する新たな課題や地政学的変化を理解し、効果的かつ戦略的な関与ができる人材を育成するための研修教材・プログラムの開発を行うことを目的とする厚生労働行政推進調査事業の一環として実施する。

<対象>

国際機関等の意思決定会合（governing body meeting）に参加予定の者で、国際会議経験に乏しい官民の若手～中堅実務者。所属先：厚労省、外務省、JICA、NCGM、大学、シンクタンク・NGO 等

人数：

参加者16名とオブザーバー（推薦ベース）

<目的・目標>

1. 国際的機関（国連・国連の専門機関・パートナーシップ）におけるガバナンスの意味を理解する。
2. 会議前の国内調整と会議準備プロセスを理解する。
3. 国際会議の標準的なルールを理解する。
4. 国際会議で有効な発言をすることができる。
5. 国際会議の意思決定に自らの主張を反映させる技法を習得する。
6. 国際益と国益を調和させる姿勢を滋養する。
7. 国際会議の暗黙知を共有する

<Purpose>

This workshop is conducted as part of Ministry of Health, Labour and Welfare's Research Grant funded research which aims to develop an effective global health diplomacy educational program. There is an urgent need to cultivate human resources who can advocate for global health at the global level in harmony with international and national interests at governance meetings such as the World Health Assembly. This workshop was designed and will be implemented to help achieve such goals.

<Target audience>

The workshop is open to young and mid-level public and private sector practitioners who are planning to participate in a governing body meeting of international organizations and have little experience in such international meetings. Possible affiliations include MHLW, MOFA, JICA, NCGM, universities, think tanks, NGOs, etc. Expect number of participants: 16 participants and observers (both on a recommendation basis)

<Objectives and Goals>

1. Understand governance in international organizations (UN, UN specialized agencies, partnerships).
2. Understand the pre-conference national coordination and conference preparation process.
3. Understand the standard rules for international meetings.
4. To be able to speak effectively at international meetings.

<開催概要>

日時：

2024 年11 月30 日（土）～12 月1 日（日）

場所：

国立国際医療研究センター国際医療協力局
グローバルヘルス政策研究センターの会議室

参加方法 対面

言語 日本語または英語
(同時通訳なし)

<講義内容>

1.国際保健概要

- 国際保健外交の全体像

2.決議作成プロセスと有効な介入 (intervention, 発言方法)

- 決議文書の読み方
- 有効な介入発言の準備の仕方
 - 日本タイの事例
- 介入発言 (intervention) の練習

3.交渉におけるイニシアチブの取り方

- 過去の交渉事例紹介・経験談の共有

*研究班活動の一環として、参加者にカリキュラムに関連するフィードバックをしていただきます。

5. Acquire techniques for reflecting one's own arguments in international conference decision-making.
6. Nourish an attitude for harmonizing international and national interests
7. Understand the unspoken rules/tactics international conferences

<Details>

Date

November 30-December 1, 2024

Venue

Institute for Global Health Policy Research,
National Center for Global Health and Medicine

Style Onsite

Language Japanese / English

(Simultaneous interpretation will not be provided.)

<Workshop Contents>

1. Overview on global health diplomacy
2. Resolution-making process and effective interventions (interventions, speaking methods)
 - How to read the resolution documents
 - How to prepare for an effective intervention
 - Examples from Japan and Thailand
 - Practicing Intervention
3. How to take the initiative in negotiations
 - Learning from past negotiation cases and personal experiences of resource persons

*As part of the research, we will ask for feedback from the participants to evaluate our curriculum.

Course Schedule Overview

Day 1, Saturday, 30 November 2024

Time		Session Title	Speakers
8:50	9:00	Sign-in on zoom online	
9:00	9:30	Self-introduction and course objectives	Prof. Hiroyasu Iso (NCGM)
9:30	10:15	*World Health Organization and its role in global health governance *Q&A in Japanese	Prof. Hiroki Nakatani (NCGM)
10:15	10:30	Break	
10:30	10:50	*Preparing for an intergovernmental meeting *Q&A in Japanese	Dr. Saki Nakamura (Children and Families Agency, the Government of Japan)
10:50	11:10	*Intervention: dos and don'ts *Q&A in Japanese	Dr. Haruka Sakamoto (St. Luke's International University)
11:10	11:50	*One Health: A holistic approach to health and well-being *Q&A in Japanese	Prof. Kensuke Nakajima (Nagasaki University)
11:50	12:50	Lunch	Please bring your own lunch
12:50	13:00	Briefing on role-play sessions	Dr. Tamami Umeda (NCGM)
13:00	14:00	Team deliberation (60 min)	Group facilitators
14:00	14:30	*Mock-up Session (Plenary #1) (30 min)	Chair: Prof. Hiroki Nakatani Feedback from resource persons
14:30	15:00	Bilateral meetings (30 min)	Group facilitators
15:00	15:15	Break	
15:15	17:15	*Mock-up Session (Working Group #1) (90 min) Feedback	Chair Country: TBD Feedback from resource persons
17:15	18:00	Networking and bilateral meetings	Group facilitators

*Sessions online by zoom

Red=Lectures in English; Purple = Roleplay sessions in English (Japanese language may be used occasionally)

Course Schedule Overview

Day 2, Sunday, 1 December 2024

Time		Session Title	Speakers
9:30	9:40	Recap of Day 1	Dr. Eiko Saito (The University of Tokyo)
9:40	10:20	*Real-life negotiations: Case studies of difficult negotiations *Q&A in Japanese/English	Dr. Satoshi Ezoe (Deputy Assistant, Minister for Global Health, MHLW)
10:20	10:30	Break

Hiroki NAKATANI

Title	Visiting Professor
Affiliation	Keio University Faculty of Medicine
CV/Profile	<p>In the past eight years, Dr. Hiroki Nakatani has held academic positions in Japan as Visiting Professor of Keio University and Invited Professor at Osaka University Post Graduate School of Medicine. He is the former Chair of the Executive Board of WHO (2019-2020) and Chair of the Committee A of the 75th World Health Assembly in 2022.. Currently, Dr.Nakatani also serves in various national and international organizations as Adviser (International Affairs) to the Minister of Health, Labour and Welfare; Chair, Board of Directors, Global Health Innovative Technology Fund (GHIT Fund);and Director, Human Resource Strategy Center for Global Health. He is a veteran public health specialist for over 45 years, who started his career at the Ministry of Health, Labour and Welfare in Japan. He worked extensively in health policy, public health, international health, and health science and technology. His national career includes serving as Director-General of Health and Welfare Services in Hiroshima Prefecture, where he was in charge of integrating health and welfare services in preparation for the arrival of a rapidly ageing society. Regarding international career, he served the WHO Headquarters twice. From March 2007 to May 2015, he served as Assistant Director-General of WHO, leading the largest technical cluster of HIV/AIDS, Tuberculosis, Malaria and Neglected Tropical Diseases. Dr. Nakatani received his MD from Keio University School of Medicine, MHPed from the University of New South Wales, and a Ph.D. from Keio University.</p>
Lecture summary	<p>The first session, "WHO and its role in global health governance, " aims to achieve the following objectives : (1) to understand evolution, definition and frameworks of global health, (2) to understand the complex architecture of global health with special attention to UN agencies' roles, particularly WHO; (3) to understand the governance and operation style of WHO; (4) to gain practical skills to be an influential contributor in governing body meetings. This starts by digesting the massive volume of background paper in a relatively short time. Participants are invited to visit the WHO governing bodies website (Ref.2) before coming to class. This experience will make participants miserable initially, but after the session, everyone will feel encouraged. The following Mock-up sessions aim at being an effective contributor in the official meetings. The four-step approach will be practiced; (1) Reviewing the background paper; (2) Digesting the instruction given by the Government after inter-ministerial discussion; (3) Drafting intervention and making actual intervention to fellow participants. At each step, there are seasoned hints and skills. Mock exercises enable participants to improve each one's intervention by practice and constructive comments by facilitators and among fellow participants.</p>

Saki NAKAMURA

Title	Deputy Director
Affiliation	Maternal and Child Health Division, Child Development Bureau, Children and Families Agency
CV/Profile	<p>Saki NAKAMURA, MD, is a board-certified pediatrician working as a medical technical officer in the Government of Japan. She spent more than three years in the International Affairs Division in the Ministry of Health, Labour and Welfare, where she has negotiated the amendments to the International Health Regulations (IHR) 2005 and the pandemic instrument towards their adoption at the 77th World Health Assembly. She has also worked with Colombia, the Democratic Republic of Congo, WHO, UNICEF and CEPI in the recent mpox response. Currently, she is working on national policy development in the field of maternal and child health, which involves policy research planning, child health checkups, child death reviews and human milk banks. She received her BSc from McGill University and MD from Hamamatsu University School of Medicine.</p>
Lecture summary	<p>My lecture aims to prepare participants for the WHO’s governing body meetings where they are expected to form a national position and make effective interventions.</p>

Haruka SAKAMOTO

Title	Visiting Associate Professor
Affiliation	St Luke’s International University
CV/profile	<p>Haruka SAKAMOTO, MD MPH, PhD, is a primary care physician and visiting associate professor at the St Luke’s International University. She got her M.D from Sapporo Medical University and worked as a physician at St Luke’s International Hospital in Tokyo for several years. She then got a scholarship from the World Bank and got her MPH at the Harvard T.H Chan School of Public Health. From 2011-2013 and 2016, she worked at the international cooperation department, Ministry of Health, Labour and Welfare of Japan, where she was deeply involved in health policy activities in Japan. As part of the work, she participated in WHO meetings, G7 meetings, and bilateral cooperation activities through JICA (Japan International Cooperation Agency). She got PhD from University of Tokyo in 2021, and she’s also currently working at World Health Organization Western Pacific Regional Office as a consultant, senior manager at Health and Global Policy Institute, senior fellow at Tokyo Foundation for Policy Research, and Associate Member of the Science Council of Japan (26th). Her current research focuses on health system strengthening, health care financing, and politics in global health.</p>
Lecture summary	<p>Many people are unfamiliar with an intervention at international conferences and have no idea what is the "format" of an intervention. In this lecture, I will show you what to include in your intervention, starting with the format of interventions you should make at international conferences (mainly at the WHO meetings). On the other hand, I will tell you about some bad things you better not to say (don't).</p>

Kensuke NAKAJIMA

Title	Professor
Affiliation	Nagasaki University National Research Center for the Control and Prevention of Infectious Diseases
CV/profile	<p>For the past seven years, Dr. Kensuke NAKAJIMA has been a professor at Nagasaki University, where he is responsible for bio-risk management at Japan’s first suit-type BSL-4 facility. While working at the Ministry of Health, Labor and Welfare and the National Institute of Infectious Diseases, he was involved in formulating pathogen control regulations based on the Infectious Diseases Act, worked hard to operate BSL-4 facilities, and even inspected and surveyed 15 BSL-4 facilities in 13 countries around the world. From 2015 to 2017, he was responsible for the infectious diseases research division of the newly established AMED, where he was involved in planning research grants related to emerging and re-emerging infectious diseases. From 2009 to 2015, he was in charge of three areas of infectious disease epidemiology surveys, zoonotic disease control, and pathogen control regulations at the Tuberculosis and Infectious Diseases Division of MHLW, where he contributed to various infectious disease control measures, including the 2009 influenza pandemic response, consideration of MERS countermeasures, response to SFTS newly confirmed in Japan, response to the confirmed outbreak of rabies in wild animals in Taiwan, response to the dengue fever outbreak in Tokyo, and response to the Ebola hemorrhagic fever that began in West Africa. Prior to that, he was assigned to Dr. Hiroki Nakatani's division on MHLW as the first veterinarian, and was involved in domestic response in light of the anthrax terrorist incident in the US, response to imported animals suspected of being infected with tularemia and also monkeypox, formulating the first contingency plan for rabies in Japan, response to the SARS epidemic and the first revision of the Infectious Diseases Act in light of the outbreak. He is a veterinarian who completed his master's degree in veterinary medicine at the Nippon Veterinary and Livestock University. After graduation, he was employed as a veterinary officer at the Ministry of Health and Welfare. He subsequently held positions in the ministry's food hygiene department and the food safety unit at WHO headquarters, before working in the field of infectious disease control.</p>

Lecture summary

First, I would like to explain what the Manhattan Principles "One World, One Health" are, why they were proposed, and in what forum they were proposed, along with the key points they set out. Next, I will introduce the efforts that countries around the world have made in relation to One Health, the flow of responses from international organizations, and explain the issues currently being considered. After that, I will touch on zoonosis, the source of the idea of One Health, and confirm with the audience what the idea behind infectious disease control is in the first place. I will then explain my experience at the Ministry of Health, Labor and Welfare, particularly in responding to infectious diseases caused by pathogens of animal origin, using actual examples, and explain the specific background to the need for One Health and solutions to issues using One Health.

Satoshi EZOE

Title	<p>-Deputy Assistant Minister for Global Health, Ministry of Health, Labour and Welfare,</p> <p>-Director for Planning and Coordination at the National Institute of Public Health (Former Director, Global Health Policy Division, Ministry of Foreign Affairs, Government of Japan)</p>
Affiliation	Ministry of Health, Labour and Welfare, Government of Japan
CV/profile	<p>Dr. Satoshi “TOSHI” Ezoe currently serves as the Deputy Assistant Minister for Global Health at the Ministry of Health, Labour and Welfare of Japan (MHLW) as well as the Director for Planning and Coordination at the National Institute of Public Health since August 2024. Dr Ezoe is a health diplomat and a medical officer promoting public health nationally and globally. He joined MHLW in 2002 after clinical training. He has since then engaged in health care and public health policy, including in the areas of global health, universal health insurance system, non-communicable diseases, including mental health and cancer control, and infectious diseases crisis management. He was seconded to UNAIDS Headquarters in Geneva (2009-2012). He was the first appointed Senior Coordinator for Global Health at MHLW (2015- 2017). He was a Counsellor of the Permanent Mission of Japan to the United Nations (2017-2020), where he was instrumental in facilitating UN General Assembly High-Level Meetings on tuberculosis (2018) and universal health coverage (2019). In August 2020, amid the COVID-19 crisis, he became the Director of the Global Health Policy Division at the Ministry of Foreign Affairs, where he was responsible for coordinating overall global health strategy and diplomacy, including COVID-19 response, health agendas for the G7 Hiroshima Summit in 2023, and contribution to global health institutions and Initiatives such as the WHO, UNFPA, the Global Fund, Gavi, UNITAID and UHC2030. He was the corresponding author for two prime ministers and a foreign minister who contributed vision articles in the Lancet on global health. He is a Medical Doctor with a PhD and received a dual Master of Public Health and Public Administration from Harvard University.</p>

Lecture summary

This lecture intends to share examples of key and difficult negotiations on global health based on hand-on experience by the presenter. These cases would include but not limited to below:

- “Pandemic Accord” negotiation (on-going)
- G7 Hiroshima Summit/Nagasaki Health Minister’s Meeting
- UNGA High-Level Meeting on UHC
- COVID-19 cooperation including COVAX AMC Summit 2021

Suwit WIBULPOLPRASERT

Title	Vice Chair of the International Health Policy Program Foundation (IHPF), The Health Intervention and Technology Assessment Foundation (HITAF), Chair of the Yothi Medical Innovation District, Chair of the Institute for the Development of Human Research Protections Foundation (IHRPF), Chair of the Roads Safety Policy Foundation (RSPF).
Affiliation	International Health Policy Program, Bangkok
CV/Profile	<p>Dr. Suwit Wibulpolprasert is a public health specialist, administrator and policy advocate at national and global level. He began his career as a Director and practitioner in rural areas and has various technical and administrative experience in Thai FDA, the Bureau of Health Policy and Plan, Deputy Permanent Secretary and the senior expert in Disease Control. He has been proactively working in public health area more than 3 decades from the grass root to the highest policy level. In parallel with working for the development of health in country, he is one of global health leader who is well-known in the public eye as the fore front fighter to protect the benefit of the poors. At present, he is the board member of National Nanotechnology Centre, the board member of the National Science and Technology development committee, the Executive Board Member of World Health Organization (WHO) , and the Member of the Quality and Standard Control Board of the National Health Security Office (NHSO). Dr. Suwit is also the Vice Chair of the International Health Policy Program Foundation (IHPF) and the Health Intervention and Technology Assessment Foundation (HITAF), the chair of the Yothi Medical Innovation District, the Chair of the Institute for the Development of Human Research Protections Foundation (IHRPF), and the Chair of the Roads Safety Policy Foundation (RSPF).</p> <p>Dr. Suwit is one of the most experienced health system specialist and has involved and contributed in Thailand’s health system development for decades. He always reiterates that health systems can become more equitable, inclusive and fair through primary health care strengthening. Clear evidences from many developed countries tell us that we are now in the right direction to focus on primary health care, not the institutional care. The success is not all about money but the most important is the heart and the spirit of the health personnel.</p>

Charlie GARNJANA-GOONCHORN

Title	Mr.
Affiliation	Ministry of Foreign Affairs of Thailand
CV/Profile	<p>Dr. Charlie Garnjana-Goonchorn joined the Ministry of Foreign Affairs in 2007. He started his career working at the Treaty Division overseeing various aspects of Thailand’s treaty making process. During his post at the Permanent Mission of Thailand to the UN in Geneva, he was in charge of extensive areas of work, including those within the purview of WHO and UNCTAD. After returning to Thailand in 2017, he has played a key role in several international disputes involving the Royal Thai Government, in addition to providing legal advice related to international trade, investment treaties, dispute settlement mechanisms and arbitration.</p>
Lecture summary	<p>The lecture will run through the basic principles of negotiation, explore how to use negotiation skills in a multilateral context especially in Global Health Diplomacy. The lecture will also highlight what negotiators should be looking out for, what are the usual traps, and how to address them.</p>

Kazuaki MIYAGISHIMA

Title	Visiting Professor
Affiliation	Nagasaki University
CV/Profile	<p>Dr Kazuaki Miyagishima has extensive experience in health diplomacy, having served for over 20 years in international organizations such as FAO, OIE and WHO. Prior to his international career, he was also a member of his national delegation to the WHO’s regional committee, Executive Board and the World Health Assembly. In particular, as the Secretary of the FAO/WHO Codex Alimentarius Commission (2003-2009), he organized over 20 international meetings every year and facilitated inter-country negotiations for international standard setting. He is fluent in French and English and is regularly maintaining his knowledge in Spanish, Italian and German.</p>
Lecture summary	<p>The Preamble of the Japanese Constitution (1946) states: “... We (the Japanese people) desire to occupy an honored place in an international society designed and dedicated to the preservation of peace, and the banishment of tyranny and slavery, oppression and intolerance, for all time from the earth. ...” Well, then, what can you do in practice to occupy such a place in the international community? By what means and how? It is indeed important to voice what your concerns and what you want, and even more so to share a vision and build an alliance. But what if your vision is not shared with other actors, or not even within your own country? Are you ready to pursue fighting in isolation? Or, are you giving up? Is there a way in between ? Good preparation at home, in advance of a negotiation, is a key to a successful outcome.</p>
